Former President Sizzles Before Knights of Columbus.

New York, Oct. 13.—"The foreign-born population of this country must be an Americanized population—no other kind can fight the battles of

America either in war or in peace."

Colonel Theodore Roosevelt so asserted in a speech on "Americanism" before the Knights of Columbus at Carnegie hall last night. Colonel Roosevelt said that at the outset it was the duty of immigrants to learn was the duty of immigrants to learn English and it was the duty of America to provide them means to learn He suggested also adoption of a military system similar to the

Some of the very best Americans that I have ever known were born abroad. But a hyphenated American Is not an Americans." Strike Situation a Scandal.

Speaking of preparedness, Colonel Roosevelt said that even in time of peace industrial disturbances should be eliminated. "The strike situation in the United States at this time is a scandal to the country as a whole and discreditable alike to employer and employee," he said.

The ill feeiging thus engendered made it doubtful whether Bulgaria would consent to enter the war on the side of Serbia and Montenegro. She steadfastly refused to abandon neutrality unless assured of territorial concessions which would enable her to realize her national aspirations. Chief of these was to regain those sections of Macedonia poplated chiefly by Bulgars which now belong to Serbia and Greece. She also sought a section of Turkish territory.

More Ideal Weather.

Weather prospects for today were all that could be desired, both from the standpoint of the player and the spectator. While there was a tinge in the air during the early morning hours the sky was cloudless and the weather man promised plenty of sunshine, which he said would make conditions as nearly perfect as possible. National league park, the playing field was in first class shape, no rain havwas in first class shape, no rain having fallen here for nearly a week.

These individuals, however, were hard to find as most every one who attended the first two games held on to their third day tickets and were in their seats when the game began.

Those who held back until the last moment hoping to obtain reservations at a discount also were disappointed. Speculators as on the two previous days demanded greatly advanced prices for what tickets they had. There was very little Philadelphia money in sight here, either on today's game or the final result of the series. Some bets were placed, however, at odds of 3 to 1 that Boston would take the series and at even money that they would win today. With the shifting of the scene of battle to the home grounds, Philadelphia fans looked to their idol, Grover Cleveland Alexander, to head off the Red Sox and thus keep the hard fighting Phillies in the running.
The Phillies themselves although

somewhat downcast over their three straight defeats, were still hopeful that the tide would turn in their favor. One thing appeared certain—they were determined to put up the struggle of their lives today. In the struggle of their lives today. #### TODAY'S MARKET REPORT.

Chicago, Oct. 13-WHEAT-Wheat jump-Chicago. Oct. 13—WHEAT—Wheat jumped in price today on account of a sharp advance of quotations at Liverpool where speculative buying was reported to be on a broad scale, with supplies still inadequate. Continued scarcity of arrivals at domestic spring wheat terminals appeared also to favor an upturn in values. There was active selling here on the advance, but the offerings were readily absorbed. Opening prices, which ranged from 1 to 2 cents higher with December at \$1.06 to \$1.07 and May at \$1.07% to \$1.08, was followed by a slight further gain and then something of a reaction.

Subsequently big clearances for Europe tended to strengthen the market. The close was buoyant, 3%c to 3%@3%c net higher with December at \$1.08% and May

The bulge, however, resulted in heavy profit taking by longs. After opening %@ 4/2 to %@%c higher, the market made an additional ascent but later underwent a moderate sag.

OATS—Oats kept pace with corn. Early sellers were forced to change tactics.

PROVISIONS—Active demand carried provisions sharply up grade. Pork led the advance.
